

12 Meter Box Distribution Box Dimensions

AI Overview

A typical 12-way distribution box has dimensions around 450–500 mm in height, 300–400 mm in width, and 120–150 mm in depth, depending on the manufacturer and model.

Standard Dimensions and Features

For a 12-way distribution box, common dimensions from manufacturers are as follows:

- Height: Approximately 450–500 mm
- Width: Approximately 300–400 mm
- Depth: Approximately 120–150 mm
- Material: Fire-resistant ABS or steel for durability
- Protection Rating: Usually IP40 for indoor use, with some models offering IP65 for outdoor or industrial applications
- Internal Layout: Equipped with neutral and earth bars, sufficient spacing for wiring, and clear circuit identification for easy maintenance and safety .

Example Product Specifications

- Schneider Electric MGPCM12R: A 12-way right-hand meter box designed for Powerpact 4 panelboards, made of robust steel, ready to install, and compact for space-limited areas .
