

2-Optical-4-Electrical Management Switch

AI Overview

A 2-Optical-4-Electrical managed industrial Ethernet switch provides 2 Gigabit SFP ports and 4 Gigabit RJ45 ports with advanced Layer 2 management, ideal for industrial networking in harsh environments.

Key Features

- **Port Configuration:** 2 Gigabit SFP (optical) ports for uplink or long-distance fiber connections, and 4 Gigabit RJ45 (electrical) ports for standard Ethernet devices .
- **Management Capabilities:** Supports Layer 2 protocols including VLAN (IEEE 802.1Q), port aggregation, STP/RSTP/MSTP, IGMP snooping, ACLs, and broadcast storm suppression, ensuring network stability and security .
- **Industrial Reliability:** Designed for harsh environments with wide operating temperatures (-40°C to +75°C), fanless low-power operation, strong EMC performance, vibration and dust resistance, and IP40 protection in some models .
- **Network Protection:** Features loop protection, RUN Ring technology for self-healing ring networks (as fast as 10ms), and multi-ring Ethernet protection for high availability .
- **Management Interfaces:** Can be managed via Console, Telnet, SSH, Web GUI, SNMP, and mobile or PC terminals, with some models supporting cloud-based visual management .
- **Alarm and Monitoring:** Supports power supply, port, and abnormal state relay alarms, as well as port speed limits and flow control .

Applications
