

Angle steel for fixing the cable tray hanger to the top plate

Overview

Angle steel supports are a more traditional and reliable choice for electrical cable tray support. These supports consist of angle steel, fasteners, and connectors, and they are typically welded or bolted into place. From suspended ceilings and cable trays to wall bracing and conduit runs, these durable metal brackets provide the reliable support needed to. Supplier highlights: This supplier is both a manufacturer and trader, exporting mainly to Costa Rica, Switzerland, and Australia. They offer flexible customization services including full customization and design customization. Additionally, they hold product certifications. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. 75mm Premier Stand Off Brackets (HDG) The 75mm Premier stand off bracket is designed for securely spacing cable trays up to 75mm wide from wall or surface mounts. Built from 2mm thick ribbed steel and finished with a hot dipped galvanised (HDG) coating, this bracket offers excellent strength. Angle plates are supplied in 90 & 170-degree options for structural direction transition between two sections of the cable trays & ladders.
