

# Core Switch Installation Budget

## Overview

Per-unit ranges commonly include \$2. 50 per linear foot of cable for basic runs, \$150–\$350 per access point, and \$600–\$1,500 per switch depending on port count and PoE needs. These figures assume standard residential or small-business environments and exclude major. The whole switch is less expensive than the SFP+ or QSFP module for the Aruba. What features do you need?

For example just layer 2 switch and vlans?

Single switch, two independent switches or some form of cluster such as stack or virtual stack?

Layer 3?

ACLs?

QOS?

what storage traffic?

FoE?

iscsi. Could anyone provide guidance on: 1. What factors I should consider when determining my rate (e., complexity of the network, number of switches, etc. Any tips for discussing pricing with clients as a newcomer in this. How Much Does It Cost for a Small Business Network Setup?...
