

Cost of Galvanized Cable Trays in New Zealand

AI Overview

Galvanized cable trays in New Zealand typically range from NZD 50 to NZD 200 per meter, depending on size, type, and galvanization method.

Price Overview

The cost of galvanized cable trays varies based on several factors:

- **Tray Type and Size:** Ladder trays, perforated trays, and solid-bottom trays differ in price. Wider or heavier-duty trays generally cost more.
- **Material and Galvanization:** Pre-galvanized steel trays are common for indoor use, while hot-dip galvanized trays for outdoor or corrosive environments are more expensive due to enhanced corrosion resistance.
- **Accessories:** Tees, bends, risers, and reducers add to the overall cost of a cable tray system.
- **Supplier and Location:** Prices may vary slightly between suppliers such as RS, LIMS HVAC, Scott Electrical, Ideal Electrical, and Equip Supply.

Typical Cost Estimates

- **Standard pre-galvanized steel trays:** NZD 50–100 per meter for common widths (100–300 mm) and heights.
- **Heavy-duty or hot-dip galvanized trays:** NZD 120–200 per meter, suitable for outdoor or industrial environments.
