

Fire cable tray installation price

AI Overview

Installing fire-rated cable trays typically costs between \$10 and \$50 per meter, depending on material, size, and installation complexity.

Material Costs

The cost of fire-rated cable trays varies significantly by material:

- Steel trays: \$5-\$25 per meter; strong and cost-effective for general indoor installations .
- Aluminum trays: \$6-\$30 per meter; lightweight and corrosion-resistant, ideal for humid or industrial environments .
- Fiber-reinforced plastic (FRP) trays: \$10-\$50 per meter; highly resistant to fire and chemicals, suitable for harsh or outdoor conditions . The choice of material affects not only the purchase price but also long-term durability, fire resistance, and maintenance requirements.

Installation Costs

Labor and installation complexity are major contributors to total cost:

- Indoor installations: Standard setups in offices or commercial buildings are relatively straightforward and less expensive.
- High-level or industrial installations: Elevated or hard-to-access areas increase labor costs due to additional supports, scaffolding, and safety measures .
