

# Georgia FRP Molded Cable Tray Price

## AI Overview

FRP molded cable trays in Georgia typically range from \$25 to \$80 per meter, depending on type, size, and supplier.

### Price Overview

The cost of FRP cable trays varies based on tray type, dimensions, and material specifications. Standard perforated or solid-bottom FRP trays with widths around 150mm and heights of 75mm generally fall in the \$25-\$50 per meter range, while larger or specialized trays with higher thickness, flame-retardant properties, or anti-static features can reach \$70-\$80 per meter. Prices are usually higher than metal trays due to FRP's corrosion resistance, lightweight, and durability in harsh environments.

### Factors Affecting Price

- **Tray Type:** Ladder, trough (solid or perforated), and channel trays have different costs. Ladder trays are often slightly more expensive due to structural complexity.
- **Material Quality:** High-strength fiberglass with flame-retardant or anti-static properties increases the price.
- **Dimensions:** Wider or taller trays require more material, raising the cost.
- **Customization:** Custom lengths, colors, or special coatings can add to the price.
- **Supplier and Import Costs:** Imported trays may include shipping, taxes, and handling fees, affecting the final price in Georgia.
