

Gulf region CIF price for long-distance optical cable OM3

AI Overview

The CIF price for long-distance OM3 multimode fiber optic cable in the Gulf region typically ranges from \$1.50 to \$6.00 per foot, depending on core count, armor, and jacket type.

Price Overview

OM3 multimode fiber is optimized for high-bandwidth, long-distance transmission and is widely used in data centers and backbone networks . Pricing depends on several factors:

- **Cable Type:** Armored cables cost more due to steel tape protection, typically \$1.15-\$6.50 per meter, while non-armored cables are at the lower end of the range .
- **Core Count:** Higher core counts (e.g., 48 or 96 cores) increase the price per meter due to manufacturing complexity .
- **Jacket Material:** LSZH (Low Smoke Zero Halogen) jackets are 25-40% more expensive than standard PVC but are often required for safety compliance .
- **Length:** Long-distance runs benefit from bulk pricing, but shipping and handling costs for reels of 2,000 meters or more must be included .
