

Myanmar Speed Fiber Optic Communication

Overview

Key Insight: Myanmar's fiber optic coverage is expected to reach 65% by 2026, significantly improving connectivity in both urban and rural regions. This expansion supports increased internet penetration, which is projected to hit 78%, reflecting rapid digital adoption. Whether you're streaming 4K content, engaging in online gaming, or running a business, our Fiber connections ensure a seamless and lag-free experience. Residential. (Yangon, 19th June 2025) – MPT is delighted to announce the successful completion of its high-speed Fiber-to-the-Home (FTTH) system upgrades in seven key states and regions: Yangon, Bago (East), Magway, Mandalay, Tanintharyi, Mon, and Shan (South). 69% in 2025, climbs to a high of 16. No network-level outage confirmed by Cloudflare Radar.
