

New Explosion-proof Distribution Box Model

Overview

The MAMX02/03 Series Explosion-Proof Control and Distribution Boxes are engineered to deliver advanced protection and long-term performance in hazardous areas, including explosive gas atmospheres and combustible dust environments. Explosion-proof lighting distribution boxes and cabinets come in a variety of models. They vary in terms of materials, including metal and flame-retardant plastic; installation methods, such as vertical, hanging, concealed, or exposed installations; and voltage levels, including 380V and 220V. Available with a wide range of built in components. Equipped with a specialised hinge structure which can prevent damage to the flameproof joints when opening and closing the box; greatly. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise.
