

North Asia bus connector models

Overview

March 2023: Hirose Electric introduced the IT14 Series, a board-to-board connector that can support high-speed 112-Gbps PAM4 data transmission. We offer a wide array of reliable and cost-effective products from standard solutions to custom designs. 1 global sales of electric buses & coaches. Bus Connector by Application (CCE, Powertrain, Safety & Security, Body Wiring & Power Distribution, Others), by Types (Wire to Wire Connector, Wire to Board Connector, Board to Board Connector), by North America (United States, Canada, Mexico), by South America (Brazil, Argentina, Rest of South. The N-ESB bus coupler module has an N-ESB bus interface to connect a Field Control Unit (FCU) to an N-IO node (*1) via an N-ESB bus. *1: An N-IO node consists of Node Interface Unit and N-IO I/O Unit. When using A2EN40□ with A2FV50□, refer to the GS “N-IO System Overview” (GS 33J62A10-01EN). When. Bus connectors are critical components facilitating electrical and data transmission within various bus systems, ranging from industrial automation and public transport to automotive and telecommunications.
