

OPWG optical cable installation price

Overview

As of recent market analysis, the price range for OPGW cables is generally between RMB 10,000 to RMB 30,000 per kilometer. Installation cost per kilometre is lower than a buried cable. Effectively, the optical circuits are protected from accidental contact by the high voltage cables below (and by the elevation of the OPGW from ground). In Prysmian, we design our special fibre optic cables to. The price of OPGW cables varies based on several factors, including the number of fiber cores 2, cross-sectional area 3, and specific application requirements 4. Understanding these elements is crucial for making cost-effective decisions, as they significantly impact the price per meter. Together with optimized housing and connectors with variable inlet diameters, sin rest assured that RIBE-OPTOFIT® products easily meet your high demands.

Optical fibers are used by utilities as an alternative to private point-to-point microwave systems, power line carrier or communication circuits on metallic cables. OPGW as a communication medium has some advantages over buried optical fiber cable. Installation cost per kilometre is lower than a buried cable. Effectively, the optical circuits are protected from accidental contact by the high voltage cables below.
