

Opening-hole distribution box

Overview

Simple to install, just push into any 4" pipe, SCH. 40, SDR 35, and thin wall. Adjustment knob moves opening up or down in 1/16" increments; total movement is 7/8". It has a watertight fit and is made with tough engineered plastic that will not corrode. It can be installed. American Distribution Boxes are made of high-density polyethylene for years of dependable use. They are non-corrosive, strong, and lightweight for easy handling. Explore Tuf-Tite® distribution and drop boxes designed for durable, leak-proof performance in both. A septic distribution box, also known as a D-box, is a small container that receives the effluent from the septic tank and distributes it evenly to the network of attached drain fields and pipes.
