

PVC circuit distribution box

Overview

PVC breaker distribution boxes are robust electrical enclosures designed to house and protect circuit breakers and associated electrical components. This expansion is primarily fueled by rising infrastructure investments and renewable energy installations requiring robust electrical protection systems. Also suitable for indoor, such as home, workshop, hotel, shopping mall, charging station, etc Great to mount indoors, widely used for home, hotel shop and many other places. A gasket locks out water from a range of drips to drenches Choose from our selection of PVC boxes, including corrosion-resistant washdown enclosures, compartmented boxes, and.
