

Price quote for stainless steel cable trays near Pakistan

AI Overview

Stainless steel cable trays in Pakistan typically range from PKR 1,200 to PKR 4,500 per meter, depending on grade, thickness, and design.

Price Range and Factors

The cost of stainless steel (SS) cable trays in Pakistan varies based on several factors:

- **Material Grade:** Higher-grade stainless steel (e.g., SS304 or SS316) offers superior corrosion resistance and durability, which increases the price.
- **Tray Type:** Ladder, perforated, and wire mesh trays have different manufacturing costs. Wire mesh trays are generally lighter and slightly cheaper, while ladder trays for heavy-duty applications are more expensive.
- **Thickness and Size:** Thicker trays and wider widths designed for heavy cable loads cost more. Standard widths range from 100 mm to 600 mm, with heights and thicknesses adjusted for load requirements.
- **Finishing:** Polished or coated trays for industrial or outdoor use may add to the cost. Hot-dip galvanization or powder coating can also affect pricing.

Typical Applications

Stainless steel trays are preferred in environments requiring high corrosion resistance, such as:

- Food processing and pharmaceutical industries
