

Single-mode pigtail fiber direct sales

Waterproof and dustproof, reliable and safe

The outer classic sink design allows the sealing ring of the cabinet and door to be seamlessly compressed without leaving a trace of gaps

AI Overview

Single-mode fiber pigtails are available for direct purchase from multiple suppliers, offering various connector types, lengths, and high-quality assurance for splicing applications.

Key Suppliers and Options

FS offers single-mode fiber pigtails with tight buffer designs suitable for fusion or mechanical splicing, with 100% end-face, insertion loss (IL), and return loss (RL) testing to ensure quality. Fosco Connect provides pre-terminated 900µm single-mode pigtails with LC, SC, or ST connectors, available in 6 or 12 fiber configurations, including 10G OM3/OM4 options for high-speed networks. Leviton Network Solutions supplies both premium and economy single-mode pigtails, offering low insertion loss, custom lengths, and same-day shipping for orders received before noon Pacific Time. These pigtails are suitable for mechanical or fusion splicing. Fibermarkt specializes in high-quality single-mode pigtails with LC/UPC or SC/APC connectors, commonly in 1m or 2m lengths. Single-mode fibers eliminate modal dispersion, providing higher bandwidth and long-distance data transmission. FiberOptics.com carries a wide range of single-mode pigtails along with complementary fiber optic tools such as fusion splicers, cleavers, OTDRs, and power meters, making it convenient for complete project setups.

Considerations for Purchase

- Connector Type: LC, SC, ST, or APC depending on your network equipment.
- Length: Standard lengths are 1m or 2m, but custom lengths are often available.
