

Smart Gigabit Fiber Optic Router for Home Access

Overview

Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious households, the TP-Link Archer AX55 delivers reliable Wi-Fi 6 performance without the premium price. Fiber internet delivers the fastest speeds — up to 5Gbps. Powered by the latest WiFi 7 (802.11be) technology and a quad-core 2. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. The FRITZ!Box 5690 brings fibre optic power directly into your home – with ultra-fast Wi-Fi 7 and maximum range. Perfect for streaming, gaming and smart networking throughout your home. The FRITZ!Box 5690 supports AON and GPON – the common fibre optic standards in Europe. If you're after the fastest gigabit internet, I recommend checking out top routers like the NETGEAR Nighthawk RAX36, TP-Link AXE5400, and GL.
