

Switch PoE power supply 24

Overview

Enterprise-grade 24-port, Layer 3 Etherlighting™ PoE+++ switch with high-capacity 10 GbE RJ45 and 25G SFP28 connections for high availability system design. 1,050W total PoE availability requires Shared Mode (coming soon). Perfect for offices, data centers, and surveillance networks. Use the passive PoE adapter TL-POE2412G to simultaneously supply power and transmit data to a passive PoE device. Redundant power supply ensures uninterrupted operation while boosting PoE output for high-demand devices The SIM feature lets you manage multiple switches as a virtual stack under one IP, streamlining operations and integration Features includes VLANs, ACLs, Port Security, 802. Recommend being paired with Enterprise Campus Aggregation.
